# Courtneil Gets Four Years For Taking Funds

**WAR TRIED BEFORE JUDGE GREEN LAST FRIDAY ON FOUR CHARGES BUT ADMITTED TO HAVING TAKEN BETWEEN 22 AND 23 THOUSAND DOLLARS FROM TOWN SINCE 1916.**

F. H. Courtneil, former secretary-treasurer of this town, four weeks ago today was arrested on a charge of misappropriating town funds. He was taken to Judge Green at the District Court house in Medicine Hat last Friday morning. Courtneil pleaded guilty to the four charges laid against him and was sentenced to four years imprisonment in the penitentiary on each charge, the sentences to run concurrently. C. S. Blanchard appeared for the crown and G. M. Blackstock for the defense.

In presenting the case for the crown Mr. Blanchard said he had taken up for counsel for defense further defalcations similar to those which had been taken up by the crown. It was admitted to the crown that it would be necessary to make separate charges on every point if it was to admit the total amount of the defalcations and this having been agreed to no further charges would be laid.

The crown presented evidence according to figures submitted by the auditors, after going over the books as far back as 1916. It was shown by the books amounted to \$43,309.14. From this amount the figures showed that some \$14,468.40 had been paid for the town's printing and postage, added to the roll by the accused from time to time. This would mean that the town was short of \$28,840.74.

Without knowing the defalcations on which money was paid in by accused it was impossible to know the exact amount to be deducted. The important point, however, was that accused admitted the gross discrepancy of \$28,840.00. That admission was made for the information of the court and the government and the bonding company. In answer to his Honor, Mr. Blackstock said that accused admitted the total amount expended by him was between \$22,000 and \$23,000. The auditors had estimated the figures in both cases were very estimated.

In presenting the case for his client Mr. Blackstock said that accused had spent his defalcations in various ways for losses on his farm, in the hope that when the war was over he would be able to return the money taken. That hope was shattered when war was a success and the situation grew worse year after year.

Another avenue which proved a temptation for the accused to use the town's money was to cash tickets by which avenue it was estimated large sums were lost by the town's game. Mr. Blackstock further stated that accused had been receiving a handling \$50,000 to \$35,000 a year and for this work he was paid \$100 and month later the same was paid to \$150 and then to \$145 a month. He said he had been paid a salary for the town should be paid a salary sufficient to remove temptation of theft.

While he could not act for suspected services, Mr. Blackstock said that as he had a penalty as possible be imposed in view of all the circumstances of the case.

Replying for the crown Mr. Blanchard pointed out that accused of this kind had been very common of recent years and other towns were dealt with leniently. But they were hardly in the category of this case where defalcations had been carried on over a long period of time and involving large amounts of money. A secretary-treasurer of a municipality was in a position to have many opportunities of being dishonest. A sentence should be given that would deter others from doing the same.

Losses in farming might be given as an excuse by accused but there was no reason to take money from those who trusted him. Since 1916 he had slipped into the town's hands in financial difficulties that was making hard struggle to pay off.

Judge Green congratulated counsel for their clear and brief explanation of the case without a number of other ideas left to place a true statement of the case before the jury. He said that in the present accounting methods the pecuniary extending over several years, should have been discovered before this.

Discussing the amount of the defalcations, His Honor said he was admitted that the breach of trust had extended over eight years. It was a large amount and he said that there was no way of getting out, until the climax came.

Speaking of gambling, His Honor said he had seen many cases of men convicted by accused and the cost of living in the position he had to live up to there, must have been a great strain for him for gambling, which was the point but where possible

# Hat Talent Gives Good Show Here

The play, "The Poor Married Man" which was put on in Canoe theatre last Tuesday evening by talent from St. Barnabas church, Medicine Hat, drew a good crowd and all the worth of the theatre feeling they got the left of their money.

The play started off with a young college man who had just been married and as though to add to the trouble brought that got with married life he brought his mother-in-law home with him from the honeymoon. From this on the Poor Married Man had his troubles, embarrassment, and in the end, taking part all exceptionally well that furnishing a most enjoyable evening.

The play was put on under the auspices of the L. A. of St. Ambrose church here and a result the auxiliary raised a tidy sum.

# Altar Society Held Successful Evening

# Reddiff Soccer Play Next Monday

Reddiff soccer will play their next league game in Medicine Hat against the Vets on Monday, May 18th. The kick off will be at 6:00. All players should be at the Broadway store corner sharp at six o'clock. The following is the line up for the game: J. Laker, J. Dutton, A. Marken, Dutton, J. Brown, J. Kirkpatrick, Phillips, H. Hoover, Reserves, N. Willis and T. Davis.

Go with the crowd and encourage the boys.

Those from Reddiff who saw the football game in Medicine Hat last Saturday evening, between Reddiff and the Callies, are lost in the details of the exhibition put on by the Reddiff boys. This was the first game of the season and ended in a scoreless draw.

That Reddiff was in the game from the start to the finish was a relief to all who saw it. The game was well played and the boys were in their favor, all will admit that it was a game well played.

# Mothers' Day Observed in the Churches Here

THREE SPECIAL SERVICES IN GORDON MEMORIAL—YOUNG PEOPLE PLAY IMPASSANT VARIETY SHOW, ST. AMBROSIE HAS EVENING SERVICE

At Gordon Memorial Mothers' Day was fittingly observed in Gordon Memorial church last Sunday. Special preparations, appropriate for the occasion, were made for the Sunday school in the morning, and for the regular services morning and evening. On all occasions there was a splendid turn out by the congregation.

The morning service was largely in the hands of the young people of the congregation. Devotions, after the singing of the hymns, were given by members of the Sunday school and the service was read by St. Wilson and A. Stratten. The singing of the hymns was led by the Sunday school choir. It was done in a most impressive manner. The great credit not only on the children themselves but also on the women who supervised the service.

At this service Eddie Champ presented a play, "The Mother's Day Service." The play was a very good one, and the children played it very well. The play was a very good one, and the children played it very well.

## OTHERS THINK SO

BEFORE passing sentence on the late secretary-treasurer of Redcliff, His Honor, Judge Green, in summing up said it seemed to him in the light of present accounting methods that the defalcations, extending over several years, should have been discovered before this.

Since no less a person than His Honor, the district judge of this judicial district, gave expression to such views, surely those who criticized the Review for presuming to express the same opinion a few weeks ago, will now revise their opinions.

## PROMISING PROSPECTS

REPORTS on conditions leaning on agricultural production in Canada in 1925 are fairly satisfactory, in fact the outlook generally may be said to be optimistic. Western Canada had an unusually heavy snowfall, and this "lay" throughout the winter, an uncommon occurrence in this territory. All sections of the three Prairie Provinces report ample moisture in the ground; labor is plentiful; farmers, speaking generally, are fairly well supplied with funds; and indications are that the acreage under crop in 1925 will exceed that of 1924.

Eastern Canada also reports good wintering conditions. The winter work of Ontario came through the season well. Spring was two weeks earlier than usual, but little work has been accomplished on account of the cold weather which persisted up to the third week of April. The Maritime Provinces report good wintering conditions, but uneasiness is experienced over the ability of the potato growers to dispose of the 1925 crop owing to the British embargo. The fruit trees in the Annapolis Valley of Nova Scotia have come through the winter well, and a good average crop is anticipated. On the whole prospects throughout Canada are most promising for 1925.

## WESTERN CANADIAN DAIRYING

In meteoric manner Western Canada has arrived at a status where it seriously asserts its position as a premier dairying country. A decade has seen a situation of a dependence on dairy imports changed to one in which millions of pounds of butter are made available for export every year. Yet predictions are frequently given that what has been achieved in the last ten years is but the foundation upon which is to be built a greater dairying industry.

In this issue A. Brydie is advertising his set of scales for sale. It would be a mistake if these were allowed to go out of town. They have been a source of great convenience and such accommodation is almost necessary in a town this size.

An exchange remarker that a large percentage of those who left Western Canada for the States were loud free traders. It does seem passing strange that these people would move to the most highly protected country in the world.

While on his present trip through South Africa the Prince of Wales is proving that he is

still one of the greatest assets of the British Empire.

## COMMUNICATION

Co-Operation Means  
A United Canada

Under the heading "Canada must fight geography" there appeared in this Review on April 16th, an article which is very misleading. Setting forth the conditions which in the past have been instrumental in developing differences of opinion among the country's inhabitants. These we are assured are now to a very great extent overcome. But in their place has developed new divisions; so we are told. Not men, but nature itself, has set up obstacles operating to divide Canada into these district groups. For half a century Canada has been fighting nature or geography in an almost superhuman and certainly courageous effort to build a nation of one people and nation of the fiscal or economic views held by them, have driven to achieve this result. It has been their lifelong aim, the greatest desire of the majority of native-born Canadians.

Although we are of the opinion that the geographical position of this nation is not the most favorable, nevertheless it must be pointed out that the greatest obstacle to national unity is the fact that Canadians as citizens do not fully, nor clearly, understand the geographical and economic interdependence. We are living in a co-operative age, but still the average citizen persists in carrying on his daily struggle for existence on purely competitive basis. Instead of practicing the "Golden Rule" we are guided by the "Rule of Gold" or "Rule of Gold" each individual and each geographical division is trying to get the best of one another. It has been so in the past, and this struggle is ever getting more intensified under the present tendency of citizens to live in wealth, but fewer and fewer lands. It is the fact, that there are too many newsmen who are repeating where they did not say, that is causing the main divisions in modern times. We also, in order to protect themselves in these privileges, are willing every means within their power to hookwork the people.

Anyone who doubts the existence of this condition, would suggest a careful perusal of "The Huns and the World" and will be found that on debate on the world the two old parties are busily engaged in pointing out each other's defects both real and imaginary. One thing which one is sure to find is, that they are both guilty of mismanaging the country and its resources. Then we have the Progressives who mean well but have not the necessary common sense, unity nor courage to undertake and carry out their respective economic policies. They are a failure as political force. The "Ginger Group" is about as good as our Dominion parliament who are presenting anything constructive something which if it was adopted would help to promote national unity. Yet the representatives think that the men and women who compose this group are too radical, and for that reason dare not support their measures.

However, it must be pointed out that these are radical times, under which the majority of the population is suffering radical wrongs. Therefore any measure which will help to remove the "cause" is a sad disappointment to those who now suffer.

Rightly understood, Canada's geographical position is in our favor, when we learn to utilize our resources more intelligently. We have an abundant supply of arable land, fisheries, forest, minerals, oil, gas and rivers with an abundance of water that can be utilized for irrigation, power, light and heating purposes. We have also the necessary equipment in the form of industrial plants to convert these materials from land, mines, forest and fisheries into articles for use or consumption sufficient man-power and technical skill, also transportation facilities to enable us to carry out systematic distribution and exchange. In fact we have within the borders of Canada everything needed to make general well-being and happiness possible if intelligently utilized.

Moreover when we consider our interdependence we will learn that as citizens we are actually working for each other; in fact, cannot exist without each other. Therefore the only hope we have, or can have, lies in the creation of the principles of "co-operation." All forces at the present time are working in that direction. Through industrial organizations and political action these forces can be directed and exchanged can be developed and established. In our hands as

citizens lies this power. Truth, justice and unity are our weapons. When we as citizens begin to teach and practice co-operation ideas in our homes, schools, places and churches we will soon make possible a "United Canada." Nothing less than that will do it. Do you want it? Then it is up to you.

## OUR DAILY BREAD

The Daily Mail, London, has begun an attack on the white bread. The argument is that the white bread causes constipation and constipation is the cause of many ailments. The Mail says white bread is deprived of the minerals and vitamins substances which our bodies can do without and keep healthy. It suggests we should not give ourselves this white bread.

## Here and There

It is expected that the present year will break all records in the movement of Eastern transients and travelers. It is estimated that over a quarter of a million Americans and Canadians will travel to Europe during the season.

The supply of farm lands for Western farms is not equal to the demand and the shortage is becoming more pronounced as the season progresses, is spite of the large number of immigrants coming from Europe for this purpose.

During the eight months ending March 1925, 187,798 cars of grain were passed by the government inspectors for the past year showed a decrease of 58,902,912 in value as compared with 1923. The total value of fruits grown in 1925 was \$23,109,343 and in 1924, \$24,386,431.

According to a statement issued by the Bureau of Statistics, Canada's production of commercial fruits for the past year showed a decrease of 58,902,912 in value as compared with 1923. The total value of fruits grown in 1925 was \$23,109,343 and in 1924, \$24,386,431.

There has been a decided increase in the first quarter of this year in the ordinary life insurance written in Canada as compared with that of the corresponding period in 1924. The increase in March over February was from twenty-eight to thirty-five million dollars.

According to the first weekly report issued by the Canadian Pacific Railway, the crop across this year will be slightly less than last. It is estimated that Manitoba will show about 2,642,000 acres this year. Saskatchewan 8,555,183 and Alberta 2,721,889 making a total area of 13,919,072 as compared with 14,153,900 in 1923.

Very encouraging reports as to the general agricultural outlook in Southern Alberta have been received from Canadian Pacific Agents around Calgary. Much more progress has been made with seeding than was anticipated and conditions are described as either "splendid," "fine" or good and in every case plenty of moisture in the ground is reported.

The country is being besieged by moving-picture stars. Mary Pickford, Viola Dana, Tom Mix, Harold Lloyd and others have passed through within the last few weeks, and explored the Rocky Mountains and other Canadian attractions. The latest is Hoot Gibson, who is bringing a large company of movie people here to film the Calgary Stampede as an incident in a "super" drama.

Lord Aberdeen and Tennant, former Governor-General of the Dominion and Lady Aberdeen, passed through Canada recently with the British delegates to the seventh Quinquennial conference of the International Council of Women, of which the Marchioness is president and founder, at Washington. On the 14th of May, Mrs. F. B. H. Lady Aberdeen was presented with a gold key to the city of Calgary by the Mayor.

### Interesting Local Items

Mr. and Mrs. G. H. Werts and family moved into their new home on 6th St. last week.

Miss Kemp, of Calgary, is spending this week in town visiting Miss McCormick.

Mrs. (Dr.) Patterson and daughter left on Tuesday evening for Guelph, Ont., where they will spend the summer visiting Mrs. Patterson's parents.

There will be a meeting of the golf club in the morning tomorrow (Friday) evening at eight o'clock. A full attendance of all interested is requested.

Little Anna Kerr entertained a number of her girl friends to a birthday party in Cliff hall last Thursday afternoon. Games of various kinds were played after which a sashy lunch was served.

At a meeting of the swimming pool executive held last evening arrangements were made to make some improvements in the pool for this year. It is hoped to have everything in good shape for opening just as soon as weather conditions warrant.

While at his work in the Brick and Coal mine last Friday, Thos. Dutton met with a painful accident. By an explosion of coal dust he had his hands and face badly bruised. While his injuries are not serious they are very painful.

Most flattering comment is being heard on all sides about the excellent music being furnished these days at the Cameo theatre by the orchestra from the Monarch theatre in the Hat. Some go so far as to say the music alone is worth the price of admission. We are assured this music will be continued just as long as the public shows by their attendance, that they appreciate it.

Mr. Chadwick and daughter Marjorie, who have just returned from a ten months' visit to England, stopped off here for a few days this week and are the guests of Mr. Howard M. Chadwick in an old residence of Redcliff having run a grocery store on First Street in the early days of the town. He is now on his way back to Vancouver, B. C. where he will reside in future.

## Silence That Is Not Golden

THE merchant who fails to "speak up" lets a lot of golden sales slip past his store. This lost business goes either to his competitor down street or, by the mail order route, to the big city stores.

People are often surprised to find that the goods they bought "unsight unseen" from a catalogue can be seen and examined in the local store!
